SUBJECT INDEX

A

Acrylic and chrome alloy, construction of bite plate from, using Pryor injection flask, 576
Address of president, American Association of Orthodontists, 327
Great Lakes Society of Orthodontists, 135
Adiposogenital dystrophy, 246 (Abst.)
Adjuster for twin-arch, 244
Aid, diagnostic, observations as, in planning minimum of orthodontic treatment, 443
Alloy, chrome, and acrylic, construction of bite plate from, using Pryor injection flask, 576
Alveolar process, circulatory canals in roentgenograms of, 640
American Association of Orthodontists, 70, 132, 191, 324, 741, 807
address of president, 327
preliminary program of New Orleans meeting, 125
proposed changes in constitutional by-laws of, 741
research section, announcement, 535, 596, 666, 739, 806
Board of Orthodontics, 133, 194, 395, 454, 601
report of, 584
Anatomic factors guiding treatment therapy, 704
Anatomy of head and neck, concepts of, 152
Anesthesia, blood studies during, 381 (Abst.)
Angina, Ludwig's, 735 (Abst.)
Anomalies, dental, and health, 655 (Abst.)
dentofacial, factors contributing to, 671
Appliance, Atkinson, 351
Johnson twin-arch, 449
twin-wire, treatment of Class II, division 1 malocclusion with, 721
universal, as presented by Spencer R. Atkinson, 241
Arch, edgewise, treatment of Class II, division 1 malocclusion with, 689
lingual, Mershon, modifications to, 792
twin, adjuster, 244
appliance, Johnson, 449
twin-wire, in treatment of Class II, division 1 malocclusion, 721
Army dental corps announcement, 395
Atkinson appliance, 351
Award, Ketcham, acceptance of, 469
presentation of, 465

B

Behavior, mouth, morphologies of, 397
Bite plate, construction of, from acrylic and chrome alloy, using Pryor injection flask, 576
Blood pressure observation on children in private practice, 731 (Abst.)
studies during anesthesia, 381 (Abst.)
Body mechanics in health and disease, 530 (B. rev.)
Bone formation, pathologic, relation of root resorptions to, 513
histology of, related to orthodontic treatment, 760
Buccal segments, maxillary and mandibular, simultaneous distal movement of, 82

C

Canals, circulatory, in roentgenograms of alveolar process, 640
Channels, nutrient, and foramina, incidence of, in periapical full-mouth radiodontic examinations, 427
Chewing of gum, 657 (Abst.)
Childhood, deformity in, prevention of, 530 (B. rev.)
hypothyroidism in, 247 (Abst.)
Children, blood pressure observation on, in private practice, 731 (Abst.)
cripples (oral deformities), 35
with abnormal bodily dimensions, grid for evaluating physical fitness (Wetzel), 796 (Abst.)
with cleft palate and harelip, rehabilitation of, 567
Class I malocclusion complicated by mandibular contraction, impaction of mandibular first premolar and maxillary protrusion, 230
Class II, division 1 malocclusion, treatment of, with edgewise arch mechanism, 689
treatment of, with twin-wire mechanism, 721
Cleft palate and harelip, children with, rehabilitation of, 567
Clinician, dietetics for, 457 (B. rev.)
Columbia University certificates of proficiency awards, 601, 809
Contraction, mandibular, complicating Class I malocclusion, 230
Control, neuromuscular of mandible, 222
Cranium and face, development of, heredity as factor in, 357
Cretin, end results in the, 593 (Abst.)

D

Deformities in childhood, prevention of, 530 (B. rev.)
oral, problems of, 35
treatment of, responsibility of dentistry in, 39
Dental corps commissions, 324
Dentistry, responsibility of, in treatment of oral cripple, 39
specialists in, recognition of, report on status of, in state of New York, 73
yearbook of 1941, 249 (B. rev.)
Dentists, announcement to, 473
Dentition, deciduous, malocclusion in, 197
development of, and divergence of facial growth, 743
first, factors affecting, 458 (Abst.)

Dentofacial anomalies, factors contributing to, 671
disturbances, familial factors in diagnosis, treatment, and prognosis of, 603
Development and growth, panel discussion on clinical aspect of, 376 (Abst.)
cranial and facial, heredity as factor in, 357
facial, in hypopituitary dwarfism, 334
of dentition and divergence of facial growth, 743
postnatal, of head, 179 (Abst.)
Diagnosis in orthodontics: theory and practice, 414
of dentofacial disturbances, familial factors in, 603
of hypothyroidism in childhood, 119 (Abst.)
Dietetics for clinician, 457 (B. rev.)
Disease and health, body mechanics in, 530 (B. rev.)
Diseases of infancy and childhood, 62 (B. rev.)
Distoclusion, bilateral, treatment of, using labio-lingual technique, 682
considerations of actual abnormality in, 246 (Abst.)
Dwarfism, hypopituitary, facial development in, 334
Dysfunction, temporomandibular, treatment of, accompanied by severe pain syndrome, 302
Dysplasia, hereditary ectodermal, of anhydrotic type, 797 (Abst.)
Dystrophy, adiposogenital, 246 (Abst.)

E

Edgewise arch mechanism, treatment of Class II, division 1 malocclusion with, 689
Edentulous areas, roentgenographic findings of, 97
Education, orthodontic, and licensure, outlook of, 1
Electrolytic stainless steel polisher, 652
Electron microscope, 732 (B. rev.)
El paradencio, 251 (B. rev.)
Embryology, comparative, of vertebrates, fundamentals of, 460 (B. rev.)
Environment, effect of, on facial proportions, 490
Eruption time of teeth among whites, Negroes, and Indians, 361
Etiology, a consideration of, 105
Evolution of dental occlusion from fish to man, 59 (Abst.)
Examinations, radiodontic, periapical full-mouth, incidence of nutrient channels and foramina in, 427
Extraction of superior first permanent molar, degree of mesiodistal physiologic wandering of teeth after, 371

F

Face and cranium, development of, heredity as factor in, 357
and jaw casualties, care of, in United States Army, 730 (Abst.)
development of, in hypopituitary dwarfism, 334
growth of, divergence of, and development of dentition, 743
Factors influencing occlusion, 61 (Abst.)
Flask, injection, Pryor, use of, in construction of bite plate from acrylic and chrome alloy, 576
Foramina and nutrient channels, incidence of, in periapical full-mouth radiodontic examinations, 427
Fractures of jaws, theory and treatment of, in peace and war, 457 (B. rev.)

G

Genetic and endocrine basis for differences in form and behavior as elucidated by studies of contrasted pure-line dog breeds and their hybrids, 320 (B. rev.)
factors (familial) in dentofacial disturbances, 603
Gingivostomatitis, acute infectious (Vincent's stomatitis), 374 (Abst.)
Great Lakes Society of Orthodontists, 669
president's address, 135
Greenfield, Abraham Lincoln, In memoriam, 124
Grid for evaluating physical fitness (Wetzel), 796 (Abst.)
Growth and development, panel discussion on clinical aspects of, 376 (Abst.)
facial, divergence of, and development of dentition, 743
Guide plane, survey on use of, 113
Gum chewing, 657 (Abst.)

H

Harelip and cleft palate, children with, rehabilitation of, 567
Head and neck, anatomy of, concepts of, 152
malformation of, in mongoloid deficiency, observations on, 315 (Abst.)
postnatal development of, 179 (Abst.)
Health and anomalies, dental, 655 (Abst.)
and disease, body mechanics in, 630 (B. rev.)
Hereditary and environmental forces in facial proportions, 488
ectodermal dysplasia of anhydrotic type, 797 (Abst.)
Heredity as factor in cranial and facial development, 357
Histologic factors useful in orthodontic practice, 167
Histology of bone related to orthodontic treatment, 760
textbook of, 736 (B. rev.)
Holt's disease of infancy and childhood, 62 (B. rev.)
Hypertrophy, unilateral, of masseter muscle, 531 (Abst.)
Hypopituitary dwarfism, facial development in, 334
Hypothyroidism in childhood, 247 (Abst.)
diagnosis of, 119 (Abst.)
untreated and treated, roentgenographic cephalometric appraisal, 590 (Abst.)

I

Immunization, active, against tetanus, 251 (Abst.)
Impacted and unerupted third molar, 554
mandibular first premolar complicating Class I malocclusion, 230

In memoriam, Abraham Lincoln Greenfield, 124
Intervention, orthodontic, of short and long duration, human tissue response to, 263

J

Jaw and face casualties, care of, in United States Army, 730 (Abst.)
fractures of, theory and treatment of, in peace and war, 457 (B. rev.)
Johnson twin-arch appliance, 449

K

Ketcham award, acceptance of, 469
presentation of, 465

L

Labio-lingual technique, treatment of bilateral distoclusion with, 682
Licensure and orthodontic education, outlook of, 1
Lingual arch, Mershon, modifications to, 792
Ludwig's angina, 735 (Abst.)
Lues ossea in infancy, 531 (Abst.)

M

Malocclusion, Class I, complicated by mandibular contraction, impaction of mandibular first premolar and maxillary protrusion, 230
Class II, division 1, treatment of, with edgewise arch mechanism, 689
dental, preventive treatment to avoid, 460 (Abst.)
in the deciduous dentition: serial study from birth to five years, 197
of teeth, congenital syphilis and, 138
types of, rapid treatment in, 586 (Abst.)
Mandible, neuromuscular control of, 222
posture of, 210
Mershon lingual arch, modifications to, 792
Message to the dental profession, 258
Mexican Orthodontic Society, 133
Microscope, 592 (B. rev.)
electron, 732 (B. rev.)
Molar, superior first permanent, extraction of, degree of mesiodistal physiologic wandering of teeth after, 371
third, impacted and unerupted, 554
Mongoloid deficiency, observations on malformations of head in, 315 (Abst.)
Morphologies of mouth and mouth behavior, 397
Moulage, wax-resin compositions for making, 659 (Abst.)
Mouth and mouth behavior, morphologies of, 397
Movement of teeth, tissue response to, 263
simultaneous distal, of maxillary and mandibular buccal segments, 82
Muscle, masseter, unilateral hypertrophy of, 531 (Abst.)

SUBJECT INDEX

A

Adamantinoma of jaw, *548* (Abst.)
Adamantoblastoma, fibrous, calcifying, *543*
Adenocarcinoma of maxilla, *65*
Administration and dosage of sulfonamide compounds, *102*
Alcohol injection in mental foramen, osteomyelitis of mandible following, *486*
Alveolar process, scleroderma of face with involvement of, *493*
Amidopyrine, fever and chills produced by, *318* (Abst.)
Analgesia, nitrous oxide and oxygen, *626*
Anesthesia, choice of, for maxillofacial surgery in war and civilian injuries, *254*
  dental, *614* (Abst.)
  for use in emergency, *453*
  general, routine of, for hospital dentistry, *722*
  intravenous, in oral surgery, *622*
Anesthetics, present-day, in oral surgery, *617*
Ankylosis of teeth to jaw, *640*
Announcement, Harvard Medical School postgraduate course, *438*
  New York Society for Oral Diagnosis, *550, 737*
  New York University College of Dentistry, postgraduate course, *248, 492, 550*
Antrum, foreign body in, and unerupted third molar, *57*
  tooth in, *668*
Aphthae and herpetic gingivostomatitis, *140*
Appliance, Woodard, *288*

B

Bandaging as first-aid measure, *194*
Berry splint, *292*
Biochemical studies of dental caries, *469*
Bone and cementum, histology of, with reference to movement of teeth, *599*
  disease of, osteitis fibrosa, *482*
  primary reticulum cell sarcoma of, *438* (Abst.)
Burns, treatment of, *177*

C

Calcification, fibrous epulis with, *431*
Cancer, cervical metastatic, treatment of, *381* (Abst.)
  of gums, *437* (Abst.)
Caries, cervical, and erosion, *633*
  dental, biochemical studies of, *469*
Case reports, *54, 57, 111, 113, 167, 169, 239, 374, 376, 431, 434, 540, 543, 605, 607, 736, 738*
Cellulitis of face and neck, sulfathiazole therapy in, *98*
Cementum and bone, histology of, with reference to movement of teeth, *599*
Cervical-caries and erosion, *633*
Chemotherapy and roentgen therapy in infections of mouth and jaw, *445*
Children, exodontia for, *682*
  Hodgkin's disease in, *381* (Abst.)
Chills and fever produced by amidopyrine, *318* (Abst.)
Cleft, congenital, of face and jaws, *384* (Abst.)
  palate surgery, method of keeping palatal mucoperiosteum against bony structures following, *522*
  submucous, of palate: traumatic perforation by denture, *113*
Condyle, mandibular, fractures, through neck of, treatment of, *258*
Congenital preauricular sinus, *399*
Cyclopropane in oral surgery, *619*
Cyst, follicular, myxomatous degeneration of, *540*
  odontogenic, benign giant-cell tumor arising from, *376*
  of oral cavity, *439*
Cystic osteochondroma of mandible, *499*

D

Deficiency of vitamins, oral manifestations of, *548* (Abst.)
Degeneration, myxomatous, of follicular cyst, *540*
Dental anesthesia, *614* (Abst.)
  caries, biochemical studies in, *469*
  field, broadens, *449*
  follicle, giant-cell epulis arising from, *374*
  infection, thrombosis of cavernous sinus secondary to, *367, 402, 458, 515*
  morphogenesis, *725*
  prescription formulary, practical, *156*

Extraction of teeth during acute infection, *671*
open method of, *326*
topical application of sulfathiazole after, *417*
wounds, local use of sulfathiazole in treatment of, *43*

F

Face and jaws, congenital clefts of, *384* (Abst.)
injuries of, care of, *213*
and neck, cellulitis of, sulfathiazole therapy in, *98*
infections of, *525*
and teeth, unilateral hyperplasia of, *54*
atypical neuralgia of, *605*
scleroderma of, with involvement of alveolar process, *493*
Fever and chills produced by amidopyrine, *318* (Abst.)
Fibro-adamantoblastoma, calcifying, *543*
Fibroma of palatal tuberosity, *434*
First aid and emergencies, *183*
Fixation, pin, method for treatment of mandibular fractures, *307*
Flap, use of, in open method of extraction, *329*
vermilion bordered, use of, in surgery about mouth, *423*
Focal infection, aspects of problem of, *28*
Follicle, dental, giant-cell epulis arising from, *374*
Foramen, mental, alcohol injection in, osteomyelitis of mandible following, *486*
Formulary, dental prescription, practical, *156*
Fracture, Guérin, diagnosis of, *275*
Fractures, compound comminuted, of skull complicated by gas bacillus infection and brain abscess, *120* (Abst.)
first-aid treatment for, *191*
horizontal, diagnosis of, *279*
treatment of, *284*
in malar region, *219*
multiple, of mandible, associated with simultaneous fractures through necks of both mandibular condyles, treatment of, *258*
Fractures—Cont'd
of mandible, *219*
extensive comminuted, treatment of, *265*
implantation method for setting, *292*
treated by pin fixation, *307*
wartime, compound, comminuted, immobilization of, *551*
of maxilla, *275*
traction, intermaxillary, for reduction of, *287*

simultaneous, through necks of both mandibular condyles, associated with multiple fractures of other parts of mandible, treatment of, *258*
Fungus diseases of lungs, *119* (Abst.)
Fusospirochetosis, *62* (Abst.)

G

Gas bacillus infection complicating fractures of skull, *120* (Abst.)
Giant-cell epulis arising from dental follicle, *374*
tumor, benign, arising from odontogenic cyst, *376*
Gingiva, hypertrophy of, due to myelogenous leucemia, *738*
Gingivostomatitis, acute infectious, *174* (Abst.)
herpetic, and aphthae, *140*
Gland, parotid, common disorders of, *119* (Abst.)
submaxillary, fibrosing lipoma of, *414*
Guérin fracture, diagnosis of, *275*
Gums, cancer of, *437* (Abst.)

H

Halitosis in relation to oral diagnosis, *109*
Hazards and their treatment in exodontia, *15*
Head, gunshot wound of, *239*
Heart diseases, patients with, effects of oral surgery on course of, *331*
Hemangio-endothelioma, *703*
Hemorrhage from dental sockets, treatment of, *382* (Abst.)
Histologic diagnosis, *504*
Histology of bone and cementum with reference to movement of teeth, *599*
Hodgkin's disease in children, *381* (Abst.)
Hospital dentistry, routine of general anesthesia for, *722*
Hypercementosis, *635*
Hyperplasia, unilateral, of face and teeth, *54*
Hypertrophy, gingival, due to myelogenous leucemia, *738*

I

Immobilization of wartime, compound, comminuted fractures of mandible, *551*
Impacted teeth, removal of, tooth division technique for, *660*
Impaction of teeth, *642*
Implantation method for setting fractured mandibles, *292*
Infant, tooth problems in, *677*
Infection, acute, extraction of teeth during, *671*
dental, thrombosis of cavernous sinus secondary to, *367, 402, 458, 515*

Infection—Cont'd
focal, aspects of problem of, *28*
gas bacillus, complicating fractures of skull, *120* (Abst.)
of face and neck, *525*
of mouth and jaw, roentgen and chemotherapy in, *445*
